Message from the President

Dear Student,

On behalf of our faculty, staff, Board of Trustees and your fellow students, I would like to welcome you to Florida Vedic College. Founded in 1990 to serve the needs of a diverse group of students who were then labeled "nontraditional", FVC has developed into one of the leaders in providing innovative, challenging, accessible degree opportunities to mid-career adults, and time conscious new students. Our religious College has distinguished itself by being one of the first educational institutions to offer their entire degree program online.

Our Commitment

At Florida Vedic College, we are committed to utilizing the technological advantages that Internet-based delivery affords for the benefit of our students and the advancement of the teaching and learning process. We will do all that we can to ensure that your experience will be as dynamic and challenging as the professional world to which you are committed.

It is my pleasure to welcome you to our College's community and to extend to you my personal wishes for your success in meeting not only your particular objectives for study, but also the personal and professional goals your degree will serve. I offer you my best wishes and my prayers for God's good blessings for your unqualified success.

Sincerely,

Dr. Randy I. Stein
